PROVISION-ISR: PROFESSIONALS AT YOUR SIDE

PROVISION-ISR is an Israeli multinational company founded in 2007 to meet the demand for high quality products in the medium segment of the CCTV market. The binomial Israel / Security is at the basis of the know-how that today distinguishes our Company.

We understand the dynamics of the industry, we promptly respond to the diversified demand of the market and we offer superior CCTV technologies along with professional after-sales support and effective marketing actions.

Provision-ISR is a fast-growing company with official exclusive distributors worldwide, who are working as partners to promote the brand in their regions while developing new designs and technologies with supreme guidelines of high quality and competitive prices.

DESIGN AND PRODUCTION

Provision-ISR devices are designed by a professional team of engineers based in Kfar Saba (Israel). The production facilities, based in Shenzhen (China), belong to the Company. Choosing Provision-ISR products means relying on a unique product, offered at extremely competitive conditions.

BRAND PHILOSOPHY

Betting against the choices of other manufacturers, Provision-ISR says "NO" to e-commerce, enhancing the irreplaceable service guaranteed by our sales network.

Our professional ethics leads us to respect and protect all the actors of the supply chain: from the big distributor to the small installer.

MINIMUM RMA RATE

Both the selection of the best components available on the market and the strict quality control that follows the production processes, significantly reduce the RMA rate.

Low RMA rates allow us to support our clients with long warranty while providing creative solutions on dealing with RMA services.

CONSTANT AND RELIABLE SUPPORT

Our expert technical support team is prepared to answer all questions and address technical issues or demands. We also offer how-to-tutorials to support you and your costumers on site. Periodic seminars and workshops are organized in support of distributors, sub distributors and installers.

SYSTEMS INTEGRATION

Provision-ISR devices are designed to be integrated with third-party systems. By "systems integration" we mean the possibility of having different systems interacting with each other in order to create a new structure that synergistically combines the potential of the original systems, creating new functionalities.

ONE-STOP-SHOP

Provision-ISR understands the need for tested and reliable CCTV accessories. We have managed to create a full range of accessories matching all types of installations.

Today we proudly represent a One-Stop-Shop for all CCTV product needs.

GENERAL SALES CONDITIONS	62-63
--------------------------	-------

SOFTWARES & APPS: OSSIA

ossia

Ossia is the latest OS for Provision-ISR's DVR/NVR systems.

It is one of the most innovative operation systems available in the market.

It offers full compatibility with all of Provision-ISR IP cameras with full control over all main features.

Moreover, it offers the user all required tools for complete utilization of the system while keeping things simple and intuitive.

The firmware is based on the most advanced SOC technology and boasts a new graphical user interface (GUI) particularly easy to use, even compared to the previous version (3.4.X).

MAIN FEATURES

- H.265 Encoding Support*
- Manual Alarm Output
- Up to 8MP Support*
- 4K (Ultra HD) Support*
- Basic Analytics Support
- Enhanced Security Features
- Advanced Network Protocols (QoS, 801.X, HTTPS support, Etc...)
- PoS (Coming Soon)
- Scheduled Push Notification
- E-mail Notifications
- CMS Feature*

INTUITIVE OPERATIONS

- One-Click Manual Record
- One-Click Alarm/Relay Output
- Camera Layout Presets
- 3D PTZ Operation
- Definable Instant Playback
- Audio Control
- Corridor mode*

IN-CHANNEL OPERATIONS

- In-Channel Playback
- In-Channel Sequence*
- In-Channel Digital Zoom
- In-Channel PTZ Operations

SMART CONFIGURATION

- Advanced HDD Management
- Double Stream Recording
- Situation Dependent Recording
- Default Username/Password Configuration
- RTSP Input configuration
- Dynamic Hybrid*

SEARCH PLAYBACK AND BACKUP

- New and Intuitive "Picture Slice Search"
- Instant "Sub-Stream" Playback
- One Click Backup
- Smart Time-Bar View and Control
- Multiple Backup Tasks
- FTP Backup

NEW WEB CLIENT INTERFACE

- New and Intuitive Design
- Full Configuration Capabilities
- Remote Playback with Time Bar
- Real-time Sub-stream Configuration
- Multiple Configuration Sessions
- Full PTZ Control
- Two Way Audio
- Cloud live backup and configuration

*Supported devices only

SOFTWARES & APPS: PROFESSIONAL CMS

Provision-ISR's CMS is a free PC Software used for all imaging products from Provision-ISR (DVRs, NVRs and IP Cameras).

It offers simultaneous live view and playback from multiple devices and full remote configuration for recording devices and cameras. The CMS is a professional software that requires minimal learning and understanding of the software's method of work, but once understood, it offers excellent features for complex installations and multi branch complexes.

MAIN FEATURES

- Support of up to 1000 devices
- Multi device live view
- Single login for all devices
- Web-client access
- Map Support
- 2 Way Audio Support - listen and talk
- **Manual alarm trigger**
- Remote Playback
- Local video recording and playback
- Local Snapshot
- Full Device Configuration (remote)
- PTZ Support
- Camera group configuration
- Smart user management
- Multi-Screen Display
- Multi-Language Support
- ONVIF Device Support (Limited)
- **Now in 64 bit version**

MULTISCREEN DISPLAY

Multi Screen view allows you to utilize your CMS over several PC screens. Using tabs, each screen can display a chosen view individually (For example: Live view, map, settings and Playback). In other situations, the screens can all display live view images at the same time so more channels will be viewed in larger size.

REMOTE WEB CLIENT

The CMS requires powerful hardware in order to run smoothly. If you need more than 1 CMS workstation - the CMS can be installed on 1 powerful PC that will be connected by less powerful computers over LAN/WAN.

ALARM MONITORING

The CMS synchronizes with all the alarm inputs/ outputs of the devices connected to it. Therefore it allows easy monitoring over sensors and alarm relays.

LOCAL OR REMOTE PLAYBACK

Supporting both remote (saved on device and local (saved on PC) playback of up to 16 channels (depends on device's technical specs)

REMOTE CONFIGURATION

The CMS allows full configuration on both local parameters and over all devices connected to it.

E-MAP SUPPORT

You can set your cameras on top of electronic maps and view it in a click of a mouse button. Multiple maps can be added creating layers and zoomed-in zones.

TWO WAY AUDIO

As a monitoring station, the CMS allows you to have two way audio with all supporting devices (Both incoming and outgoing audio).

VIDEO ANALYTICS

The CMS allows both the configuration of videoanalysis and the reproduction of specific events.

SOFTWARES & APPS: IP MANAGER

The IP manager is a free PC software used to detect all NVRs, DVRs and IP Cameras in the local network. It is also used for advanced and quick IP camera configuration.

MAIN FEATURE

- Detects all Provision-ISR devices in the network
- Detects ONVIF cameras in the network
- Offers live preview of the selected Provision-ISR camera
- Showing all the information needed by the user (Configurable)
- Allows single/batch camera configuration including:
 - Full network parameters setting
 - Firmware update
 - Password settings
 - Picture settings
 - Stream Settings
- Allows initializing camera reset protocol

SOFTWARE UPGRADE

Update IPC software/kernel directly from the tool.
It is possible to update several IPC from the same type together.

NETWORK CONFIGURATION

Configure network settings for 1 IP camera or more.
You can either set fixed IP or DHCP from the tool.

STREAM CONFIGURATION

Set the video stream of the camera.
This should only be used if the camera serves as a standalone.
Only cameras with v 3.4.2.1 and up will support this feature.

SET PICTURE

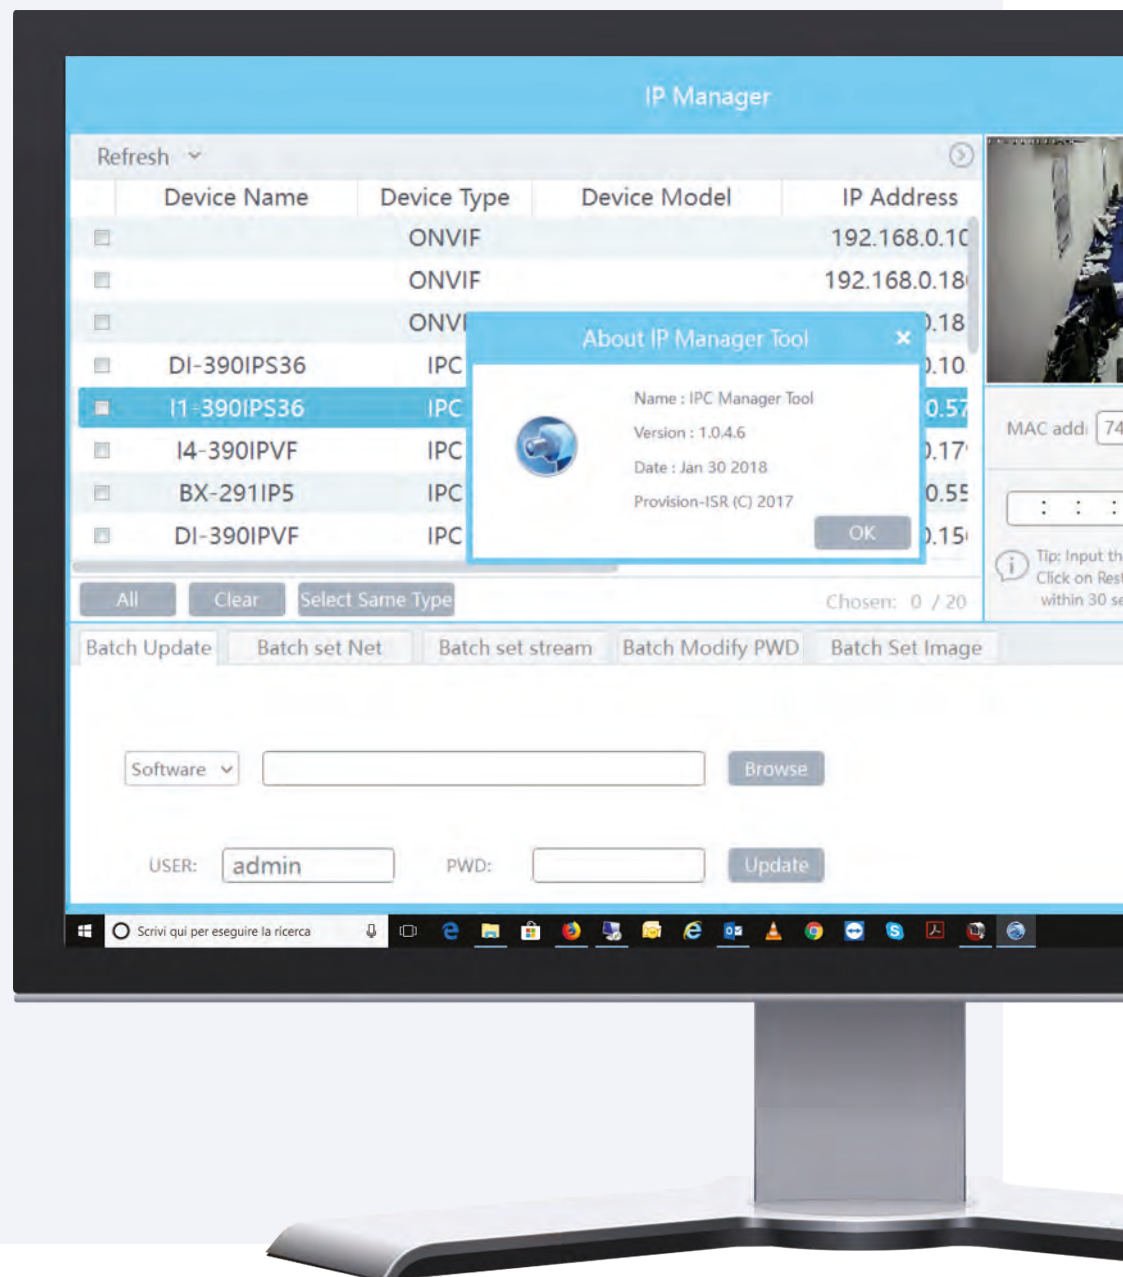

Quickly set all the pictures parameters (3D-DNR, Mirror, Flip, IR, Etc.) for all the required cameras.

MODIFY PASSWORD

Securing your site is top priority.
This tool will allow you to change the password of all IPCs in just one click.

CAMERA RESET

Possibility to reset the camera directly by means of the tool: additional actions are required for security reasons.

SOFTWARES & APPS: PROVISION CAM2 & PROVISION PNV2

Provision Cam2 is a free application for iOS & Android devices. It is compatible with all NVRs, DVRs and static IP Cameras. It offers the users full control over their devices including live view, playback and settings. It is secured against unwanted access, user friendly and intuitive for all users.

MAIN FEATURES

- Up to 100 devices
- Available also for Tablet (Android-IOS)
- Live View in single or multi-channel display mode (Up to 16 Channels)
- Multi device live view
- Single login for all devices
- Gesture password for enhanced security
- 2 Way Audio Support - listen and talk
- Local video recording and playback on your mobile
- Landscape view with full features
- Main/Sub stream view.
- Image snapshot with instant sharing options
- Remote playback with time bar. (Up to 4 channels)
- Remote system configuration
- PTZ control
- Color and camera lens adjustment
- Local startup configuration
- Fish-Eye Camera Support
- Push notification Support

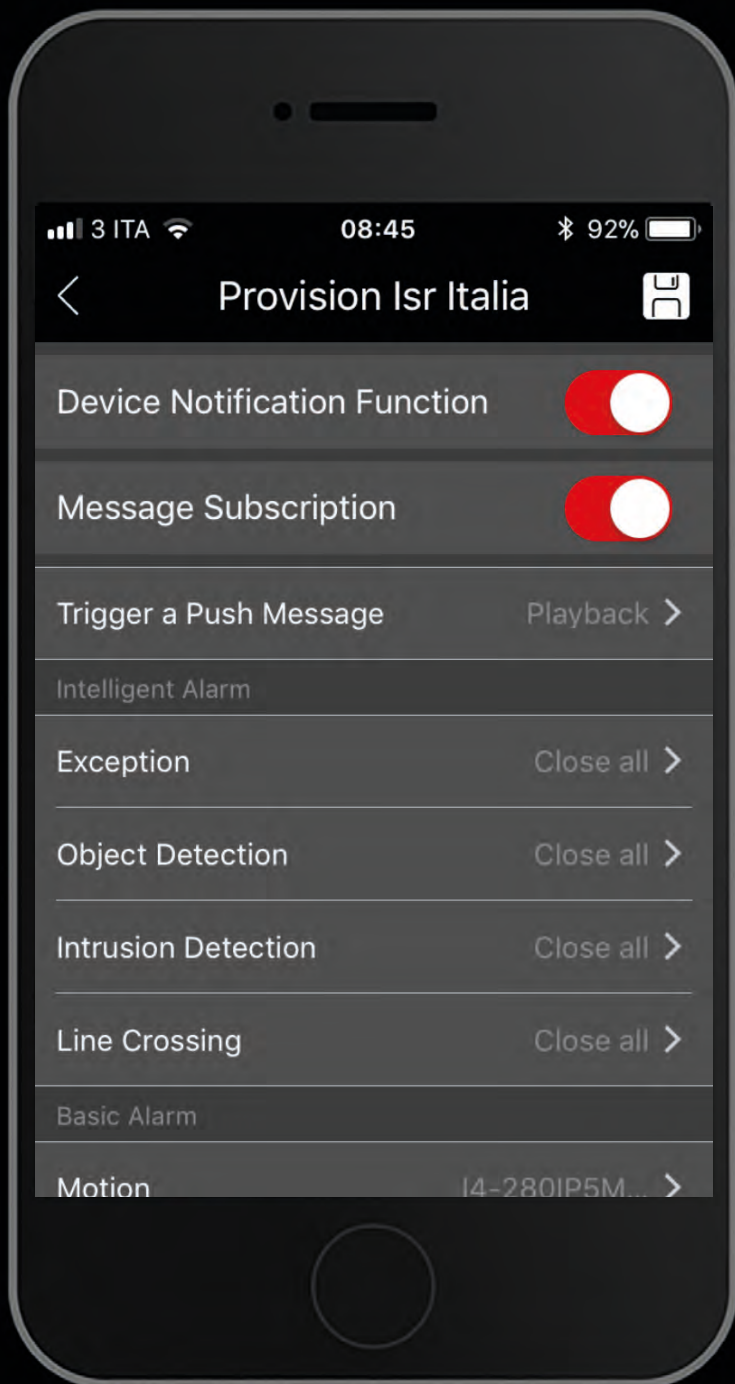

Provision PnV2 is a free application used for all IP cameras from PnV series. It offers the easy camera installation for supported models, and full control over the cameras including live view, SD card playback and settings. It is secured against unwanted access, user friendly and intuitive for all users.

MAIN FEATURES

- Live View of single or multi camera display mode (Up to 4 cameras)
- Multi device live view
- Single login for all devices
- Camera access from anywhere in the world based on your user name
- Push Notification Support
- Gesture password for enhanced security
- 2 Way Audio Support - listen and talk
- Local video recording and playback on your mobile
- Landscape view with full features
- Image snapshot.
- Remote playback (Single channel)
- Camera configuration
- Color adjustment
- PT (Pan/Tilt) gesture control

Push Notification

Thanks to the push notification, the user will be able to watch the live video of the installed cameras avoiding the so-called False Alarms.

When the event occurs, the burglar alarm system is activated and generates a "push" warning directly on the mobile device of the user who can verify (from remote) the entity of the event detected by the cameras.

CUSTOMIZED PUSH NOTIFICATION:

- Motion event Push Notification
- Sensor event Push Notification
- Analytics event Push Notification
- System event Push Notification
- Push Message type live/playback

IP TECHNOLOGY

The IP Protocol is the most common protocol for communication over computer networks and the Internet. It is ideal for streaming a high-quality video through the network. IP surveillance technology offers a high-tech flexible solution without compromising reliability or picture quality.

THE ADVANTAGES:

- Acquisition of high resolution video and images.
- Possibility to power the cameras with the same cables used for data transmission (PoE functionality).
- Advanced device features: IP cameras can convey not only the image but also additional information (such as audio, control commands, etc).

CHOOSING PROVISION-ISR IP TECHNOLOGY:

- Easy Installation
- Full compatibility with pre-existing systems (ONVIF protocol).
- H.264 / H.265: file compression without renouncing to image quality.
- Complete software for managing and monitoring multiple cameras.
- Completeness of the range and ability to respond to the most different installation requirements.

APPLICATIONS:

- **BASIC:** Residential/SOHO PnV IP Cameras, requiring no previous installation knowledge.
- **MEDIUM:** characterized by single NVR with several IP cameras.
- **PLUS:** numerous cameras linked by POE switches, NVRs and a professional CMS software.

2MP (1920x1080)
3MP (2048x1536)
4MP (2592x1520)

S-SIGHT

Addresses more cost sensitive solutions.

4MP (2688x1520)
5MP (2592x1944)
8MP (3860x2160)

EYE-SIGHT

The largest series of cameras and Installers preferred choice with focus on great image quality.

1/3" - 1/2.5" - 1/2.7" CMOS
True Day & Night (ICR)
Min. ill 0.1Lux
BLC/HLC
True WDR (only for 2,4,5MP)
H.265
ONVIF
PoE

5MP (2592x1944)

DARK-SIGHT

Provides high resolution video stream with full connectivity alongside extraordinary night performance.

1/1.8" CMOS
True Day & Night (ICR)
Min. Ill 0.001Lux
H.265+ Video compression
Digital WDR/BLC/HLC
ONVIF
PoE

2MP (1980x1080)
4MP (2688x1520)
6MP (3096x2196)

SPECIAL

Designed to answer special installation needs.

This series is composed by:
BX-291P5
MC-392IP543 hidden camera
FEI-360IP5 (New Fish Eye)
DVS-IP5-4 (Video server)

* only 4MP

* only "+" models

Video Analytics

VIDEO ANALYTICS ECO LEVEL:

Sterile area, line crossing, camera tampering.

VIDEO ANALYTICS PRO LEVEL:

Sterile area, line crossing, camera tampering, people intrusion, object monitoring, crowd gathering, people counting.

STERILE AREA

Detects if any object entered the defined area. This analytics cannot distinguish between a human being and other objects entering the area. Up to 4 areas can be monitored in at any given time.

CAMERA TAMPERING

Designed to detect tampering with the camera. It can detect and alarm 3 situations:

1. Camera shifting: In case the camera was forcibly moved out of place so it wouldn't cover the required area
2. Camera Masking: Detects if the camera was covered or tampered in a way that blocks its view.
3. Lens Tampering: Detects lens tampering causing blurred image.

LINE CROSSING

Detects if an object crossed a defined line. The crossing direction can be adjusted from each side of the line or from both sides. Up to 4 lines can be monitored at any given time.

PEOPLE INTRUSION

Covers the whole scene (Area cannot be configured) and focus detection on people movement only. All other objects entering to the scene will be disregarded (Vehicles, animals, garbage, Etc.)

The alarm trigger is based on the definition of schedule only.

OBJECT MONITORING

Object Monitoring Analytics can work in one of two methods: Missing Item and Left Item.

Missing item will detect if the marked item was moved or taken while left item will detect if an item was left behind in a defined area.

Up to 4 objects or areas can be monitored in at any given time.

CROWD GATHERING

Allows the camera to detect when there is a gathering of people in a defined area. Once the defined area will be filled with people as configured – an analytic alarm will be generated.

The alarm trigger is based on the definitions of area, crowd density (Percentage) and schedule.

PEOPLE COUNTING

Enables the camera to count how many people has entered and exited a defined passage.

Upon configuration, the user can set the incoming, outgoing and staying thresholds meaning that the camera will generate an alarm once any of these thresholds will be reached.

The counter can be reset on a daily, weekly or monthly basis.

Network Video Recorder IP

In standard installations - the NVR will be the heart of the IP System. It is responsible for smooth communication with the cameras and the constant recording of all the data received from the connected cameras. Unlike DVRs, the NVR doesn't compress the video signal received from the IP camera but only stores it in the same way as it is already compressed by the camera.

Professional

CONVENTIONAL NVRs

This line of NVR is connected to the network and communicates with the IP cameras through the general network, without the need of direct IP camera connection. This provides the installer highest flexibility in the design of the system and the wiring. Basic knowledge in networking and general IP configuration is required.

ONVIF

All of our NVRs support ONVIF that can be upgraded when newer versions are released. ONVIF is a communication protocol for IP cameras and NVRs. It became the standard protocol and assists IP cameras and NVRs from different companies to be able to interact with each other simply and effectively. Our engineers keep improving and updating the ONVIF compatibility of our IP equipment in order to give the installers the easiest way of working with Provision-ISR IP Products.

Easy

POE NVRS

This line of NVRs performs as a local network switch by creating a closed internal network for the IP cameras. The IP cameras will be connected directly to the NVR by one network cable which will provide PoE power and automatically configure the camera for display & record. These NVRs may also perform as conventional NVRs by dedicating some of the channels to communicating with any ONVIF camera connected to the network. No previous knowledge is required for this type of installation.

CAMERAS

Provision-ISR Plug-and-View Cameras (PnV) are easy as 1 2 3:
Quick set-up, easy to use, smart and cost effective!

Provision-ISR's advanced Plug & View cameras are ideal for monitoring your home, office or business day & night. They provide HD image quality with advanced H.264 video compression to achieve the highest streaming video quality. Provision ISR's innovative technology of "Plug & View Cloud" allows you to easily connect to your camera, anytime, anywhere, simply using your smartphone or tablet and Provision ISR's free app (compatible with Android and iOS). No messy network cables, or video connections. After installation is completed, the only cable the camera will need is power.

- Plug and View interface
- H.264 Video Compression
- 150Mbps WiFi Connectivity (802.11n)
- Motion Detection
- Day and Night Vision with ICR and IR LEDs
- 2 Way Audio (Built in Microphone & Speaker)
- Micro SD card local storage
- iOS/Android Support
- Motorized Pan/Tilt (*only pan/tilt version)
- Touch Gestures for camera control

LIVE VIEW

Possibility to choose between single or multiple view mode.

TOUCH GESTURES

Possibility to zoom in and control the orientation of the camera through the multi touch system.

PLAY BACK

Possibility to play the recorded files on the optional memory card.

SETTINGS

Possibility to control all camera settings remotely.

Switch POE (power over ethernet)

STANDARD 10/100 MBPS

These PoE switches are the best choice for any standard installation. They are especially designed for IP surveillance giving extra reliability and installation simplicity. With 4/8/16/24 port options, standard uplinks and SFP ports (depending on model) they allow to find a solution for any installation.

CCTV Mode

PROFESSIONAL 10/100/1000 MBPS

The 1000Mbps (gigabyte) PoE switches are made for true professionals. The standard switches with 4 or 8 ports were designed for heavy-duty work. The professional 16/24 Port switches, equipped with an LCD monitor, were designed to display all the following PoE system information on the front panel of the device:

- Single channel In/Out power (W)
- Overload (OLP)
- Short circuit (SCP)
- Low voltage / overvoltage (alarm)
- High temperature (alarm)

CCTV Mode

CCTV MODE

The CCTV mode is actually a preconfigured VLAN (Cannot be customized by the user) that prevent all communication among the downlink ports. The CCTV mode also limits the communication to 10Mbps to increase stability.

The achieved benefits of CCTV mode are:

- No communication among downlink ports (VLAN) improves the network security and data transmission efficiency.
- Limiting the communication speed to 10Mbps increases the communication distance to a maximum of 250 meter.

High PoE

High PoE adopts the latest IEEE 802.3bt protocol which uses all four pairs in a network cable. Each High PoE port can provide up to 60W of DC power to connected device. Comparing with the previous standards “at” and “af” which supports power output of 15 watts and 30 watts respectively, High PoE can provide up to 100% more power. The High PoE is designed to answer the growing demand for high power consuming network devices such as IP Speed Domes, and at the same time allows to extend PoE applications for over 100 meters by using Hi-PoE PD (Powered Device) switches. The current High PoE device selection can provide you with a complete solution for any installation and includes.

- 370 Watt (Avg:15w Max: 30W per ch)
- Internal Power Supply
- Complies With IEEE802.3af/at PoE
- Distance: Up to 100 Meters
- Built-in Surge Protection
- Rack mount bracket included

PoES-24380C+2Combo

24 PORT 10/100MBPS +2 COMBO POE SWITCH

- Downlink: 24x100Mbps Ports
- Uplink: 2 x 1Gbps Port or 2 SFP (Combo)
- 380 Watt (Avg:15.75w Max: 30W per ch)
- Internal Power Supply
- Complies With IEEE802.3af/at PoE
- Distance: Up to 100 Meters
- Built-in Surge Protection
- Status LCD Monitor
- CCTV mode:
 - up to 250 meter at 10Mbps
- Vlan function: no communication among downlink ports
- Rack mount bracket included

PoES-0460G+2G

4+2 PORT GIGA POE SWITCH

- Downlink: 4 x 1Gbps PoE Ports
- Uplink: 2 x 1Gbps Port
- 60 Watt (Avg:15W Max: 30W per ch)
- External Power Supply
- Complies With IEEE802.3af/at PoE
- Distance: Up to 100 Meter
- Built-In Surge Protection

PoES-08130GC+2G

8+2 PORT GIGA POE SWITCH

- Downlink: 8 x 1Gbps Ports
- Uplink: 2x 1Gbps Port
- 120 Watt (Avg:15W Max: 30W per ch)
- External Power Supply
- Complies With IEEE802.3af/at PoE
- Distance: Up to 100 Meter
- Built-in Surge Protection
- Built-In LCD For Status Indication
- CCTV mode:
 - Up to 250 meters at 10Mbps
- Vlan function: no communication among downlink ports
- Wall Bracket

PoES-16300GC+2SFP

16+2SFP-PORT GIGA POE SWITCH

- Downlink: 16 x 1Gbps Ports
- Uplink: 2 SFP
- 300 Watt (Avg:18.75W Max: 30W per ch)
- External Power Supply
- Complies with IEEE802.3af/at PoE
- Distance: Up to 100 Meter
- Built-In Surge Protection
- Built-In LCD For Status Indication
- CCTV mode:
 - Up to 250 meter at 10Mbps
- Vlan function: no communication among downlink ports
- Rack mount bracket included

PoES-24300GC+2SFP

24+2SFP-PORT GIGA POE SWITCH

- Downlink: 24 x 1Gbps Ports
- Uplink: 2 SFP
- 300 Watt (Avg:12.5W Max: 32W per ch)
- External Power Supply
- Complies With IEEE802.3af/at PoE
- Distance: Up to 100 Meters
- Built-In Surge Protection
- Built-In LCD For Status Indication
- CCTV mode:
 - Up to 250 meter at 10Mbps -
- Vlan function: no communication among downlink ports
- Rack mount bracket included

SWITCH POE
10/100 MBPS

SWITCH POE GIGA
10/100/1000 MBPS

PoESP-0124W

PoEI-0130

PoER-01

1 CH POE ETHERNET SPLITTER

- Adjustable output 5VDC/2A, or 9VDC/2A or 12VDC/2A
- Maximum Power Output: Up To 24W.
- Short-Circuit Protection.
- High Efficiency DC/DC Converter
- Complies with IEEE802.3 AF/AT Power Over Ethernet

1 CH POE ETHERNET INJECTOR

- Downlink: 1x 100 Mbps
- Output: max 30W
- Internal power supply
- Complies with IEEE802.3 at PoE
- Distance: up to 100 meters
- Short circuit protection

1 CH POE EXTENDER (REPEATER)

- Extends PoE Ethernet range up to additional 100 meter 10/100Mbps Ethernet
- No additional power supply is required
- Automatically detects and protects PoE equipment from being damaged by incorrect installation
- Complies with IEEE802.3 at PoE

PoER-02

EOC-01

DCoE-01

1 TO 2 CH POE EXTENDER (REPEATER)

- Allows to transmit both cameras and PoE signal Over 1 Ethernet.
- Extends PoE range up to additional 150 Meters
- 10/100Mbps Ethernet
- 2 Ch Output
- No additional power supply is required
- Automatically detects and protects PoE equipment from being damaged by incorrect installation
- Compliance with IEEE802.3 10BASE-T, IEEE802.3U 100BASE-TX, IEEE802.3af/at, Standards
- Wall Bracket/Earthing Terminal

ETHERNET OVER COAX (EOC)

- Set-Transmitter/Receiver
- Up To 150 meter of Ethernet over standard coax cable (RG-59)
- Passive units: no power supply needed
- Requires that the camera will be powered on

NON-POE POWER OVER ETHERNET CONVERTER

- Set-Transmitter/Receiver
- 50 Meter working distance
- Camera DC power supply needed
- Supplies DC power input to the camera - Not PoE

Technology AHD

HIGH DEFINITION THROUGH COAXIAL CABLE

AHD (Analog High definition) technology boasts full compatibility with analogue cameras and with any analogue or digital video recorder. The images are coded on board the camera and transmitted in compressed mode to the DVR, through a coaxial cable.

- This technology boast many advantages:
- It is easy to install.
- It allows analog cameras to achieve high resolutions.
- It allows the wiring with coaxial cables up to long distances, with a FULL-HD quality.
- Thanks to the compatibility with analog systems, AHD technology guarantee an easy maintenance: common testers / monitors can be used to test the cameras.

Provision-ISR's AHD cameras features the universal 4in1 multi-technology, thanks to which the installer will be able to choose the camera output among AHD, TVI, CVI or ANALOG.

1/3" CMOS
Plastic case
Cost effective
Perfect for indoor installation

1/3" CMOS
Great Day & Night performance
Equipped with a basic OSD Menu
Perfect for small installations

1/3" CMOS
Perfect Day & Night performance
LED IR Array and OSD menu with various options
Installers preferred choice

1/3" CMOS
High quality image
Motorized zoom lens, true WDR
Great performance under extreme light conditions

1/3" CMOS
Great Day & Night performance
LED IR Array and OSD Menu with various options
Top image qualit

Digital Video Recorder **AHD**

DVR systems are the “heart” of any CCTV installation.

All information streamed from the cameras accumulates into the DVR.

The DVR captures the video signal coming from the camera, converts and saves it in digital format. Therefore, when it comes down to the final video resolution, the DVR's quality is as important as the cameras'.

Moreover, since all the recording data is saved and rewritten over and over on the DVR, it must be an extremely reliable and high standard product.

All of Provision-ISR DVR's are designed and manufactured according to researched and practiced knowledge over many years of experience.

All DVRs use the advanced H.264-H265 video compression format to deliver maximum video quality, while using minimum storage volume.

Provision-ISR DVRs are made of the highest quality components and adapted to work in a wide-range of different conditions and applications.

All of our DVRs stand out for their “full feature” operating system with use friendly graphical interface running from its powerful processor.

Depending on the model, our DVRs include digital VGA and HDMI monitor out, analog video out, audio in/out, RS-485 for PTZ control and alarm in/alarm out sockets.

The range of DVRs is also supported by a powerful network function for remote monitoring, full remote configuration and mobile device application for remote monitoring.

DVR 1080 P LITE

It replaces the 720P models and offers better resolution with more features.

DVR 1080 P

Full HD resolution with hybrid capabilities and advanced features.

DVR 5MP

4MP resolution with hybrid capabilities and advanced features.

DYNAMIC HYBRID

Thanks to this new function we can decide how the analog channels have to work according to the installation needs.

This way, we make this the installation totally dynamic.

ACCESSORIES
DVR

PR-HDMItoVGA

HDMI TO VGA CONVERTER

- Supports: all HD format up to 1080P @ 30 fps
- Support HDMI 1.4b
- No support of HDMI audio (Will be lost)
- No power required

PR-HDEx(4K)

HDMI REPEATER

- Supports: all HD format up to 4K @ 30 fps.
- Support HDMI 1.4b
- Support up to 40 meters total transmission distance (AWG 26 cable standard)
- 1080P resolution:
 - Input: up to 15 meters, Output: up to 25 meters
- 4K resolution:
 - Input: up to 5 meters, Output: up to 8 meters
- Note:
 - working distance may be affected by the cable quality and length
- No power required

PR-SP102(4K)

1 TO 2 HDMI SPLITTER

- Split 1 HDMI input to 2 HDMI outputs
- Support HDMI resolution up to 4K@30Hz
- Support digital audio format: DTS-HD/Dolby-true HD/DTS/Dolby-AC3/DSD/HD(HBR)
- Supported HDMI cable distance: (AWG 26 cable standard)
- 1080P resolution:
 - Input: up to 15 meters. Output: up to 15 meters.
- 4K resolution:
 - Input: up to 8 meters. Output: up to 8 meters
- Note: Working distance may be affected by the cable quality and length
- DC5V power supply needed (USB Power cable included)

PR-SP104(4K)

1 TO 4 HDMI SPLITTER

- Split 1 HDMI input to 4 HDMI outputs
- Support HDMI resolution up to 4K@30Hz
- Support digital audio format: DTS-HD/Dolby-true HD/DTS/Dolby-AC3/ DSD/ HD(HBR)
- Supported HDMI cable distance: (AWG 26 cable standard)
- 1080P resolution:
 - Input: up to 15 meters. Output: up to 15 meters.
- 4K resolution:
 - Input: up to 8 meters. Output: up to 8 meters.
- Note: Working Distance may be affected by the cable quality and length
- Include DC5V power supply

PR-SW301(4K)

3 TO 1 HDMI SWITCHER

- Compatible with HDMI 1.4a.
- Support up to 4K@30Hz.
- Deep color 12bit per channel
- "Smart switching" function that can detect live HDMI signal in different channels and switch to it automatically
- No power supply required for standard installation. If the HDMI output cable exceeds 5m – a CD5V power supply will be required (Not included)

PR-AHD-Con

AHD TO HDMI/VGA/BNC CONVERTER

- HDMI output compatible with HDCP, HDMI1.4
- HDMI output resolutions: 720P@50/60Hz, 1080P@50/60Hz
- VGA output resolutions:
 - 800x600@60Hz, 1024x768@60Hz, 1366x768@60Hz, 1280x720@60Hz, 1920x1080@60Hz
- Selectable output by physical button on the device
- Supports both NTSC/PAL Video inputs –Automatic detection
- Maximum output distance: HDMI: 20 meters, VGA: 5 meters, CVBS: 500 meters
- Note: Working Distance may be affected by the cable quality and length.

PR-HDoNet

HDMI EXTENDER OVER CAT5E/CAT6

- Working Distance:
 - Up to 40m distance over cat5e cable
 - Up to 60m over Cat6 cable
- HDMI 1.3 & 3D support
- 12Bit deep color and bandwidth of up to 225Mhz support
- Support video resolution of up to 1080P@60Hz
- Supported Audio formats: DTS-HD/Dolby-true HD/LPCM7.1/DTS/Dolby-AC3/DSD
- DC5V power supplies included

PR-HDKVMoNet

HDMI USB KVM EXTENDER OVER CAT5E/CAT6

- Working distance:
 - Up to 100m distance over cat5e cable
 - Up to 130m over Cat6 cable
- HDMI1.3 & 3D Support
- 12Bit deep color and bandwidth of up to 225Mhz support
- Support video resolution of up to 1080P@60Hz
- Supported Audio formats: DTS-HD/Dolby-trueHD/LPCM7.1/DTS/DolbyAC3/DSD
- Support USB2.0 Keyboard and mouse transmission
- Support IR signal transmission
- DC5V power supplies included
